## EXPERIENCE

SCC Soft Computer, Clearwater FL USA   <a href="https://www.softcomputer.com">https://www.softcomputer.com</a> <b>Database administrator</b>	09/2019 – Present
---	-------------------

We provide 24x7 support for approximately 400 Oracle database servers worldwide. Key projects:

- Unbreakable Oracle data availability for customers and the end products via on-line Oracle databases' pro-active and re-active health monitoring
- Fault tolerance via hardware redundancy and specialized software
- High availability via Oracle Data Guard and RAC features
- Backup consistence via everyday backup and backup validation
- License management and inventory software
- Data scrambling
- Data encryption
- Co-operation with software developers to perfect the end products constantly
- Improving employee qualifications

ISD, Dnipro UKRAINE   <a href="http://isd.dp.ua">http://isd.dp.ua</a> <b>Database administrator team lead</b>	08/2009 – 08/2019
--	-------------------

A part of international DBA crew. Oracle database servers support as a business associate of SCC Soft Computer.

ISD, Dnipro UKRAINE   <a href="http://isd.dp.ua">http://isd.dp.ua</a> <b>Database administrator</b>	02/2005 – 11/2009
--	-------------------

Oracle server/client installation, upgrade and support for the company inner environments

JSC Industrialbank, Zaporizhzhya UKRAINE   <a href="http://www.industrialbank.ua">http://www.industrialbank.ua</a> <b>Software developer</b>	06/1998 – 02/2005
---	-------------------

Development of and support for financial monitoring systems and accounting systems

JSC Electrometallurgical works Dneprospetsstal , Zaporizhzhya UKRAINE   <a href="http://www.dss-ua.com">http://www.dss-ua.com</a> <b>Software developer/supporter</b>	06/1996 – 06/1998
--	-------------------

Automation and support of accounting and steel-melting processes

## EDUCATION, CERTIFICATION & TRAINING

### *Education:*

- Zaporizhzhya National Technical University, UKRAINE, 1991 -1996, <http://www.zntu.edu.ua>

### *Certificates:*

- Oracle Database Administration 2019 Certified Professional | 10/2023, Oracle Corporation
- Oracle Certified Professional Oracle Database Security Expert | 07/2023, Oracle Corporation
- IBM Certified Big Data Engineer | 03/2019, IBM
- Oracle Database Cloud Administrator Certified Professional | 03/2019, Oracle Corporation
- Oracle 12c Certified Professional (OCP) | 02/2016, Oracle Corporation
- Oracle Partner Network Certified Specialist | 01/2011, Oracle Corporation
- Oracle 11g Certified Professional (OCP) | 01/2011, Oracle Corporation
- Oracle 10g Certified Professional (OCP) | 11/2009, Oracle Corporation
- Oracle 10g Managing Oracle on Linux Certified Expert | 12/2008, Oracle Corporation
- Oracle 10g Administrator Certified Associate (OCA) | 11/2006 , Oracle Corporation
- HP-UX Certified System Administrator | 04/2006, Hewlett-Packard Company
- Solaris Certified Network Administrator (SCNA), | 11/2004, SUN Microsystems
- Solaris Certified System Administrator (SCSA) | 05/2004, SUN Microsystems

### *Trainings:*

- Oracle 11g Database Support Specialist Assessment | 07/2011, Oracle Corporation
- Oracle 11g Database Presales Specialist | 07/2011, Oracle Corporation
- Oracle 11g Database Sales Specialist Assessment | 07/2011, Oracle Corporation
- Oracle 10g Database Performance Tuning | 05/2009, Oracle University

## PROJECTS

FCBGuard software provides ability to prevent unauthorized AS SYSDBA access to Oracle database. This is implemented via mandatory USB security key/token/card presence.

<https://www.oracleongpu.com/fcbguard/>

FCBCrypto software provides inexpensive row level data encryption for Oracle database Enterprise and Standard Edition 11g, 12c, 18c, 19c and 21c versions, where Oracle Advanced Security option is not available or too expensive

<https://www.oracleongpu.com/fbcrypto>

FCBHifence software provides cell level data security via public-key cryptography (also known as asymmetric cryptography) for on-premises or cloud based, Express, Standard or Enterprise, 11g, 12c, 18c or 19c Oracle databases

<https://www.oracleongpu.com/fcbhifence/>

Tool to fully automate standby database re/creation

<https://www.oracleongpu.com/an-utility-to-speed-up-oracle-standby-re-creation-drastically/>

How to use graphics card's processing power to boost Oracle database server
